### **MSCHE - You've Got to Know**

Do you know: MSCHE Accreditation process has re-launched?

As the first US-accredited university in Asia, over the past 12 years, MCU has successfully secured accreditation TWICE. Today, Ming Chuan remains the ONLY US-accredited university in Asia. This month, the third cycle of Self Study for re-accreditation has been launched. With pride and determination, we are set to NAIL it, AGAIN.

From 2022-23 to 2024-25, this cycle of reaccreditation will once again be a marathon of thorough Self Study that includes participation by every single MCU member. For a better, greater Ming Chuan, let's race together from the firing of the starter pistol and ace another winning reaccreditation at the finish line. This will extend the glorious legend of MCU and refuel the torch of victory in our university's history.

YOU are cordially invited to light the path. Your voice matters; share your thoughts and take action, online or in person. Events to center the campus around the reaccreditation spirit will be announced throughout the Self Study period. Tell us your thoughts about MCU, so that we may jointly light up the future picture of MCU, painted by each of us participating together.

Yes! We can!
